### **Professional Affiliations**

New York State United Teachers Member, Since 2014

TESOL Member, Since 2012

### **Research Interests**

I am interested in investigating best practices of teacher education in the field of multilingual education. In addition, providing the appropriate mentorship to teachers in urban settings. I am also interested in looking at the relationship building between students and teachers and gaps that might prevent this type of relationship build. Finally, I would like to look at the use of social-emotional learning as an educational framework to enhance educational outcomes for multilingual students.
