

GSE Online Survey Service

GSE maintains an online survey tool using the SelectSurvey.Net software for all GSE faculty and staff. We also allow GSE student organizations and GSE-affiliated projects or groups to use the tool as well. This tool supports an unlimited number of surveys, responses and survey creation accounts.

To access the survey site go to <https://gseweb.gse.buffalo.edu/gse-survey/>, then click on the link that says, "If you would like to log into the application, please click here." (click on the word "here").

To request a survey creation account please log a work order using the GSE Help Desk form online here: <http://gse.buffalo.edu/help>.

The makers of SelectSurvey.Net, ClassApps, has a good online user manual here: <http://classapps.com/Documentation/SelectSurveyNETUserManual.pdf>
