

## Student Teacher Assessment Record (STAR)

### 2016-2017 Indicator of Pre-Service Teacher Effectiveness (Component 4.2)

The Student Teacher Assessment Record (STAR) is intended to be a prompt for communication between student teachers, their Teacher Educator Associates (TEA), and their Cooperating Teachers (CT). The evaluation is completed by the student teacher's TEA three times during the first placement (1.1, 1.2, 1.3) and two times during the second placement (2.1, 2.2). The CTs complete the STAR evaluation two times during the first placement (1.1, 1.2) and two times during the second placement (2.1, 2.2). The assessment is divided into four domains: Content Knowledge, Pedagogical Knowledge, Pedagogical Content Knowledge, and Professional Qualities

For all items within each component, the TEA and CT rate their student teacher as either proficient, competent, developing, or emerging, rated with a 4, 3, 2, or 1 respectively, based on their abilities demonstrated in field experiences. Aggregate means for each domain are reported, along with the total means for both the first and second placements, and a total mean across both placements.
